Every Home Needs This Great Remedy

No Home Can Afford to Be Without a Mild, Reliable Laxative.

No well-regulated home should be without a laxative, for there is scarcely a day in a family of several persons that someone doesn't complain of a headache, of sleeplessness, or show the first signs of a cold.

A laxative then becomes a necessity of the first order, and a trifling congestion at the beginning may run into a serious cold or fever. No harsh remedy is needed, but simply a mild, laxative tonic that will make the liver active and stir up the bowels. People who have tried a great many things, and under the heads of families who have seen the little pills run to big ones, will tell you that there is nothing better than Dr. Caldwell's Syrup Pepsin, which you can obtain at any drug store for fifty cents or one dollar a bottle, the latter being the family size.

Among the great believers in Syrup Pepsin for constipation in old or young, and as a general household remedy, is Mrs. M. P. Smith, of 710 N. Cherry St., San Antonio, Tex. To use her own words, she says she will bless Dr. Caldwell's Syrup Pepsin, for she believes that through his remedy, Syrup Pepsin, she found the way to permanent good health.

Dr. Caldwell's Syrup Pepsin is scientifically compounded and its purity is vouched for. Mothers give it to their babies, and grown people, taking a little large and it equals it equally effective. It is mild and gentle, pleasant-tasting and free from gripping.

It does not hide behind a high-sounding name and is absolutely free from any prohibited ingredients. Families who once use Syrup Pepsin for ever after avoid catarrhs, salts, pills and other harsh medicines, for these only do temporary good, are nauseous and do harm to the system. Such things should never be given to children.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 413 Washington St., Monticello, Ill. A card with your name and address on it will do.

Want Price Provision.

Small manufacturers and dealers who compete with great corporations want some provision for price regulation in the new trust bills to prevent their being squeezed when the trust need prices on large quantities.

Before the senate interstate commerce committee today a delegation spoke against the clause which provides that "nothing in the bill should prevent discrimination in price between purchasers of commodities on account of differences in grade, quality or quantity of the commodity sold, or that makes only due allowance for differences in the cost of transportation."

Cutting Drug Prices, Weapon.

C. H. Nixon of the National Association of retail druggists told the house commerce committee that cutting prices on patent medicines was the chief need of the retail druggist. He said that the combination of drug stores and cigar stores to drive small individual retailers out of business.

We believe a monopoly is being started with the object of controlling the retail drug trade of the entire United States," said he.

Samuel Untermyer told the house judiciary committee that the interstate commerce bill would be lacking unless it also prohibited interlocking stock ownership. The bill, as it stands, merely would substitute dummy directors for the real directors, he said.

A laxative then becomes a necessity of the first order, and a trifling congestion at the beginning may run into a serious cold or fever. No harsh remedy is needed, but simply a mild, laxative tonic that will make the liver active and stir up the bowels. People who have tried a great many things, and under the heads of families who have seen the little pills run to big ones, will tell you that there is nothing better than Dr. Caldwell's Syrup Pepsin, which you can obtain at any drug store for fifty cents or one dollar a bottle, the latter being the family size.

Among the great believers in Syrup Pepsin for constipation in old or young, and as a general household remedy, is Mrs. M. P. Smith, of 710 N. Cherry St., San Antonio, Tex. To use her own words, she says she will bless Dr. Caldwell's Syrup Pepsin, for she believes that through his remedy, Syrup Pepsin, she found the way to permanent good health.

Dr. Caldwell's Syrup Pepsin is scientifically compounded and its purity is vouched for. Mothers give it to their babies, and grown people, taking a little large and it equals it equally effective. It is mild and gentle, pleasant-tasting and free from gripping.

It does not hide behind a high-sounding name and is absolutely free from any prohibited ingredients. Families who once use Syrup Pepsin for ever after avoid catarrhs, salts, pills and other harsh medicines, for these only do temporary good, are nauseous and do harm to the system. Such things should never be given to children.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 413 Washington St., Monticello, Ill. A card with your name and address on it will do.
